Finally get answers with AndHealth

Many conditions share common causes, yet symptoms present in different ways. The traditional approach to autoimmune care is suppressing symptoms rather than addressing what is causing the issue in the first place.

With AndHealth, you and your loved ones now have access to quality root cause treatment with no waiting list.

Included in your care

A dedicated care team, including a rheumatologist, physician, health coach, care coordinator, clinical pharmacist, nutritionist, and psychologist

1-1 health coaching

Comprehensive lab testing to determine your root cause

Personalized nutritional plan, supplements, and medication management

When appropriate, tailored meals delivered directly to you

An Oura Ring to support data-driven decision-making and better health outcomes

The Ohio Chamber Health Benefit Program has partnered with AndHealth to offer care for members of the program who suffer from high-cost autoimmune diseases.
